

Illusion

Reflections in the window
and half light in the night
it just seem to continue
a mental parasite

Illusion
on a dark night scene
reflecting
the eternal dream

Hallucinations inside
I walk around for real
I'm just an acolyte
I'm looking for a deal

Illusion
on a dark night scene
reflecting
the eternal dream

Illusion
on a dark night scene
reflecting
the eternal dream

I'm waiting here forever
I need a little dope
I thought you were so clever
you took away the hope

Illusion
on a dark night scene
reflecting
the eternal dream

Illusion
on a dark night scene
reflecting
the eternal dream
