

## I want you

You are the star that shines  
down from way up afar  
I wanna worship you  
at the holy altar

I want you, I need you  
I haunt you, I plead you  
I'll summon, so come on  
walk into my dream

I am the earth below  
and I want to embrace  
the shining love above  
and not a hollow trace

I want you, I need you  
I haunt you, I plead you  
I'll summon, so come on  
walk into my dream

Into the fire we dance  
and devour the joy  
We got no second chance  
this is how we employ

I want you, I need you  
I haunt you, I plead you  
I'll summon, so come on  
walk into my dream

I want you, I need you  
I haunt you, I plead you  
I'll summon, so come on  
walk into my dream
