

Little Candlelight

Little candlelight
you shine the darkness away
little candlelight
the peace has come here to stay

Little candlelight
I light you for all my dears
little candlelight
you have never shone so clear

I light a candle
and the bells will ring
I light a candle
and the choir will sing

I light a candle
and the peace will come
I light a candle
and the darkness is gone

Little candlelight
you chase away all the fear
little candlelight
you tell me Christmas is near

you tell me Christmas is near
you tell me Christmas is near
you tell me Christmas is near
you tell me Christmas is near
