a. Living on the Moon

I'm standing on the moon
I hoped you'd be there soon
I'm reaching out my hands
I'm shading for the sun

The sun is blinding me
I'm drowning in the light
I got this tunnel sight
engulfed by eternal night

Living on the moon
loneliness and gloom
looking at the sun
I wish I could run

Thought we could cut the crap
thought we could sip the sap
I need another shot
I'm feeling not so hot

I'm sitting in a pod
I know you think it's odd
I got this tunnel sight
engulfed by eternal night

Living on the moon
loneliness and gloom
looking at the sun
I wish I could run

b. Eternal night

Eternal night
darkness and light
I'm conscious in
unconsciousness

Remotely are
the lonely stars
I'm staring out
I'm living in doubt

Eternal night
eternal night
the lack of light
eternal night

The dark sideshow
a looney blow
the starving brain
the spirit has flown

Remember me
and stars we saw
the light erase
the memory case

Eternal night
eternal night
the lack of light
eternal night

c. Confinement

They greet me so kind
and show me my room
they think I am blind
and this is my doom

Confinement for your protection
I wait for my resurrection
I keep asking
the same old question
getting gibberish
and silent looks

They lock up my door
and give me weird pills
I'm sick on the floor
so this is the drill

Confinement for your protection
I wait for my resurrection
I keep asking
the same old question
getting gibberish
and silent looks

Confinement for your protection
I wait for my resurrection
I keep asking
the same old question
getting gibberish
and silent looks

d. Electric sheep (instrumental)

e. Live long and prosper

It stopped so many years ago
but no one ever noticed
we all were very busy then
and happiness was round the bend

Live long and prosper
it's all within a grasp
live long and prosper
we knew we'll get it at last

We put a spacecraft on the Moon
we could not get there too soon
we looked beyond the stars on fly
the answers coming, never why

Live long and prosper
it's all within a grasp
live long and prosper
we knew we'll get it at last

f. Living on the Moon (reprise)

My thoughts will slip away
I don't know what to say
I'm reaching out in vain
and no one knows my pain

I'm burned out by the light
I can't reverse it now
I got this tunnel sight
engulfed by eternal night

Living on the moon
loneliness and gloom
looking at the sun
I wish I could run

Living on the moon
loneliness and gloom
looking at the sun
I wish I could run

g. Moon stones (instrumental)

g. God is gone

Empty space
cold and bare
God is gone
like the sun

God is gone
there are none
just an empty shell
neither heaven nor hell

God is gone
now who won
hear the sounding bell
anybody who can tell

Empty thoughts
standing still
I repeat
I repeat

God is gone
there are none
just an empty shell
neither heaven nor hell

God is gone
now who won
hear the sounding bell
anybody who can tell

God is gone
there are none
just an empty shell
neither heaven nor hell

God is gone
now who won
hear the sounding bell
anybody who can tell
