

Lonely Fire

I am a lonely fire
I'm burning in the dark
you are a steaming engine
you're working really hard

Vengeance is boiling
patience is toiling
and people are spoiling
longing for wars and

building up frontiers
setting up snares and
spying on others
lying to all

I am a lonely fire
I want to burn you up
you are a sleazy liar
you don't know when to stop

Vengeance is boiling
patience is toiling
and people are spoiling
longing for wars and

building up frontiers
setting up snares and
spying on others
lying to all

casting spells and
taking pills
I am feeling numb
and resist waking up

Vengeance is boiling
patience is toiling
and people are spoiling
longing for wars and

building up frontiers
setting up snares and
spying on others
lying to all

casting spells and
taking pills
I am feeling numb
and resist waking up
