

Lost

We're riding out for obliterated dreams
and we intend to go all the way, tag along our way
The goal was once very clear to see ahead
the mind was set and the horses fresh, and so was the flesh

Where did we get lost
in the search for holy grail
We have lost the trust
cause we payed beyond the pale
We are lost in a maze
of the dreams from our yesterdays

tema 1 (Kort)

The only thing we can do is wave goodbye
to all the things we have lost through time, it's a crime sublime
And so they say we have lost virginity
and all our dreams they have disappeared, vanished in the air

Where did we get lost
in the search for holy grail
We have lost the trust
cause we payed beyond the pale
We are lost in a maze
of the dreams from our yesterdays

tema

We can't keep floating around and round and round
in search for pieces of visions, wisdom can't be found
We must prepare for the rising of the dawn
so pain and misery won't find us, naked in the rain

Where did we get lost
in the search for holy grail
We have lost the trust
cause we payed beyond the pale
We are lost in a maze
of the dreams from our yesterdays
