a. Mirror show

Early in the morning
till late in the evening
We watch and we watch
is it you or is it me

Watching the mirror show
sitting here in a row
Watching the mirror show
watching the silent glow

Do you like it
do you want it
do you need it
is it you I see

In the night while sleeping
we fight in our dreaming
we battle our enemies
is it you or is it me

Watching the mirror show
sitting here in a row
Watching the mirror show
watching the silent glow

Do you like it
do you want it
do you need it
is it you I see

b. Vanishing Point (instrumental)

c. Reflections on the rebound

I'm watching through
the looking glass
I don't believe what I just saw
someone's in there
wants to get out
my own reflection is not me

Reflections on the rebound
I don't believe what I found
so don't come here
and mess around
this is not a proving ground

I close my eyes to keep it out
I'm left here with a
sense of doubt
so is it you or is it me
that I don't want
to look and see

Reflections on the rebound
I don't believe what I found
so don't come here
and mess around
this is not a proving ground

d. Identical twins

I look at you, I look at me
I think we're identical twins
I step ahead, you do the same
we play a strange kinda game

Identical twins
that's what we are
identical twins
we're more than that

We walk along the shopping lane
I follow you as you twinkle by
you look at me, you've
got no shame
just like the birds in the sky

Identical twins
that's what we are
identical twins
we're more than that

e. Hide and seek

I move to the left
I move to the right
I do what is best
in the situation

We're playing a game
it's got a name
it's called hide and seek
and it's not for the weak

I move to the sky
I'm tricking your eye
now see me multiply
see me petrify

We're playing a game
it's got a name
it's called hide and seek
and it's not for the weak

Watching the mirror show
sitting here in a row
Watching the mirror show
watching the silent glow

We're playing a game
it's got a name
it's called hide and seek
and it's not for the weak

Do you like it
do you want it
do you need it
is it you I see

f. Mirror show (reprise)

g. Empty mirror (instrumental)

Wide awake we're dreaming
as we have no reason
I can't seem to move
is it you or is it me

Watching the mirror show
sitting here in a row
Watching the mirror show
watching the silent glow

Watching the mirror show
sitting here in a row
Watching the mirror show
watching the silent glow
