

## Move on

When will it ever stop  
now that I've reached the top  
like a stone in the road  
fading in the distance

I have to move on  
like the days in the sun  
I have to move on  
still feel I'm on the run

I try to look forward  
but it's too hazy to see  
I try to look inside  
shadows and faded light

I have to move on  
like the days in the sun  
I have to move on  
still feel I'm on the run

Move on, move on  
they don't have to say it  
move on, move on  
I'll do it anyway

Move on, move on  
we chant it everyday  
Move on, move on  
It's a place in my mind

Rattling like a tin can  
I make disturbing noise  
I feel I'm out of place  
I don't think I have a choice

I have to move on  
like the days in the sun  
I have to move on  
still feel I'm on the run

I have to move on  
like the days in the sun  
I have to move on  
still feel I'm on the run
