

Outside My Window

I have to stay at home
I have to be alone
I'm sitting on my chair
I'm caught in despair

Outside my window
springtime is here
outside my window
life is going on

We sit and play a game
we know it's got a name
it's going on for hours
we wither like a flower

Outside my window
springtime is here
outside my window
life is going on

I wanna get out
I wanna be free
and there is no doubt
thus we scream and shout

I wanna get out
I wanna be free
and there is no doubt
thus we scream and shout

I'm looking through the bars
I'm looking at the stars
they carry us away
we're not meant to stay

Outside my window
springtime is here
outside my window
life is going on

Outside my window
springtime is here
outside my window
life is going on
