

# Paradise

- a. Forever springtime
- b. Traveling (instrumental)
- c. Exploit
- d. Paradise
- e. The world is a dump

- f. Sunset explosion (instrumental)
- g. Fly from here
- h. Forever springtime (reprise)
- i. Ad Astra (instrumental)

- a. Forever springtime

We come in our safe pods  
and land in the safe spots  
we've been traveling lightyears  
we've been sleeping, dreaming

Forever springtime  
it's milk and honey  
colonizing Eden  
we know just what to do

We come with diseases  
commands as we please  
we've been traveling too long  
we've been looking forward

Forever springtime  
it's milk and honey  
colonizing Eden  
we know just what to do

Forever springtime  
it's milk and honey  
colonizing Eden  
we know just what to do

- b. Traveling (instrumental)

- c. Exploit

We build up houses  
and make roads along  
we sail the oceans thin  
and tame the western wind

Exploit the water  
exploit the forest  
exploit the mountains  
exploit the sky above

We dig holes in earth  
and take what it's worth  
of gold and the black tar  
and synthesize the rest

Exploit the water  
exploit the forest  
exploit the mountains  
exploit the sky above

Exploit the creatures  
exploit the poor ones  
exploit the fire  
exploit the sky above

d. Paradise

How do you like my hair  
How do you like my clothes  
how do you like my style  
how do you like my smile

Paradise, we walk in the meadow  
paradise, we talk in the shadows  
paradise, we bask in the sunshine  
paradise, we eat all the apples

Don't you think I'm fancy  
don't you like my dancing  
don't you love my money  
don't you call me honey

Paradise, we walk in the city  
paradise, we drive in fast cars  
paradise, we'll never get old  
paradise, our souls' already sold

e. The world is a dump

We shit our own nest  
and used up all the energy  
now there is nothing left  
and this will be our legacy

The world is a dump  
we smashed and we crashed  
the world is a dump  
we showed off and flashed

I'm kicking the cans  
and waiting for the bus to come  
I'm cursing the sky  
I can't sustain my living here

The world is a dump  
we smashed and we crashed  
the world is a dump  
we showed off and flashed

f. Sunset explosion (instrumental)

g. Fly from here

How long we're gonna  
live like this  
how can we find the  
way through this  
how can we escape from here

We can fly from here  
to the next world  
We're setting sail  
we light the fuel

I don't think I can breathe  
anymore  
I don't think I can  
live through this  
how can we escape from here

We can fly from here  
to the next world  
We're setting sail  
we light the fuel

We can fly from here  
to the next world  
We're setting sail  
we light the fuel

We're setting sail  
we light the fuel  
We're setting sail  
there are no rules

h. Forever springtime (reprise)

We leave this Eden wrecked  
depleted for all goods  
we will travel light-years  
we will sleep and dream now

Forever springtime  
it's milk and honey  
colonizing Eden  
we know just what to do

Forever springtime  
it's milk and honey  
colonizing Eden  
we know just what to do

i. Ad Astra (instrumental)
