

## Perdition

I look in to your eyes  
and the stars fall from the sky  
it feels like I get lost  
I know it's against all odds

I wanna bring you money  
and I wanna call you honey  
I like the clothes you wear  
and the scent of your hair

I know that you play with my heart  
and it feels like a dart  
I got this strange premonition  
you'll lead me in perdition

I took you to the dance  
and I watch the others glance  
I worship you on the floor  
when you walk through the door

The sky will sure fall down  
and I'm feeling like a clown  
if you decide to leave  
I'm left in eternal grief

I know that you play with my heart  
and it feels like a dart  
I got this strange premonition  
you'll lead me in perdition

You shine like the stars above  
and I know I'm deeply in love  
you showed me so many ways  
I'm stuck in our happy days

I can't go on without you  
and I never doubt in you  
if we should split apart  
It sure will break my heart

I know that you play with my heart  
and it feels like a dart  
I got this strange premonition  
you'll lead me in perdition

I know that you play with my heart  
and it feels like a dart  
I got this strange premonition  
you'll lead me in perdition
