

Reset my heart

I sit and watch the shadows
they're moving
I know the time is passing
for no one particular

Don't let it slip away again
don't let it get so out of hand
we'll still be able to go back
we will salvage what is left

Reset my heart before you go
undo this hurt you left me in
Reset my heart and
let me love again, love again

They say it fades to shadows
we're moving
I know the time is passing
my body remember still

Don't let it get to you again
just let it cross the universe
I'll still be able to go back
I will salvage what is left

Reset my heart before you go
undo this hurt you left me in
Reset my heart and
let me love again, love again

Reset my heart before you go
undo this hurt you left me in
Reset my heart and
let me love again, love again

I walk the lands of shadows
I'm moving
I know the time is lying
it all was an illusion

I loved the way we moved
through time
I loved it hurling out of hand
we'll still be able to go back
we will salvage what is left

Reset my heart before you go
undo this hurt you left me in
Reset my heart and
let me love again, love again

Reset my heart before you go
undo this hurt you left me in
Reset my heart and
let me love again, love again
