

Rise and fall

(Incl. Easy street)

Here I go again
and I have to choose
will it show again
I got nothing to lose

Rise and fall
I hear the call
the road is hard
right from the start

Got so much to learn
but I won't be shy
wanna see you burn
just before I say goodbye

Rise and fall
I hear the call
the road is hard
right from the start

Easy street

Walking on easy street
everyone pleases me
I'm blinded by the light
and I'm feeling alright

Wanna be free
wanna be me
wanna be seen
wanna play all night long

Drinking the red sunshine
everyone's feeling fine
wind's blowing in my hair
and I know I'll meet you there

Wanna be free
wanna be me
wanna be seen
wanna play all night long

Rise and fall (cont.)

Searching everywhere
keeps me on the go
I know you're not there
cause our ways parted long ago

Rise and fall
I hear the call
the road is hard
right from the start

Rise and fall
I hear the call
the road is hard
right from the start
