

Room with a view

Maybe I was lucky
maybe I don't feel so well
since I left the ground
for a better view

Watching as they're coming
watching as they're going out
wonder what happens next
in their vivid life

Room with a view
I watch all day long
room with a view
it's the same God old song

Come sit beside me now
come sit beside me and watch
clouds are rushing mad
rain is pouring down

Nightfall will come shortly
nightfall will come shortly and
show the stars on streets
also in the sky

Room with a view
I watch all day long
room with a view
it's the same God old song

Room service

They make my bed
they come with towels
they greet me kind
let me unwind

They bring me food
they bring me drink
they come and clean
they keep me calm

Room with a view (fortsat)

Curtain is black and blue
curtain with the moon and stars
wait for me I won't
be too late for you

Night watch is coming by
night watch will take me along
now we walk the path
of eternal bliss

Room with a view
I watch all day long
room with a view
it's the same God old song (x2)
