

## Ships in the night

I saw you sitting in a boat tonight  
I knew that something wasn't quite alright  
I saw you floating on the waves tonight  
I watched you as you faded out of sight

We're just ships passing in the night  
hope to cross the ocean without a fight

I wonder where you're heading at tonight  
to some place where lights are shining so bright  
I wonder if I can follow you tonight  
I watched you as you faded out of sight

We're just ships passing in the night  
hope to cross the ocean without a fight

||: Ships in the night  
we're just ships in the night  
sailing out of sight :||

Where do you go to  
when the lights are out  
where do you go to  
when you leave the crowd

Sailing, waving  
goodbye to the world  
hello to the sunset

You wanted to go out to Babylon  
you wanted to go out to Avalon  
I wonder if I can follow you tonight  
I watched you as you faded out of sight

We're just ships passing in the night  
hope to cross the ocean without a fight  
We're just ships passing in the night  
hope to cross the ocean without a fight
