

Sinking

It's gonna be a showdown
for you and me
It's gonna be a hoedown
for all to see

Sinking through the skies
falling to the ground
Angel in disguise
wanna fool around

I'm heading for the waste land
I'm gonna leave
I'm gonna be my own man
oh, set me free

Sinking through the skies
falling to the ground
Angel in disguise
wanna fool around

The time stands still inside
 this shattered dream
as we reach out all and one
 for the saving light
The light that's shining through
 in colored beams
to encourage everybody just
 to stand up and fight
cast out the demons
with big shiny weapons
letters from the past
will reach you at last

solo

I'll follow my belief now
and square the rest
I'm gonna make it somehow
I'll do my best

Sinking through the skies
falling to the ground
Angel in disguise
wanna fool around

The time stands still inside
 this shattered dream
as we reach out all and one
 for the saving light
The light that's shining through
 in colored beams
to encourage everybody just
 to stand up and fight
cast out the demons
with big shiny weapons
letters from the past
will reach you at last
