

Space Cowboy

I am a space cowboy to you
a travelin' fool from outer space
You don't believe I can settle down
you think I'm just a colored clown

I can drive your tractor right
I can plow your fields all night long
I am not just an actor bright
let me show you where I belong

They say I mean no good to you
a drifting fool you'll soon forget
They don't believe I can work your farm
they think I'm gonna burn your barn

I can drive your tractor right
I can plow your fields all night long
I am not just an actor bright
let me show you where I belong

I am a space cowboy to you
an elusive dream on the wall
you don't believe I can be for real
now I'm just waiting for your call

I can drive your tractor right
I can plow your fields all night long
I am not just an actor bright
let me show you where I belong

I can drive your tractor right
I can plow your fields all night long
I am not just an actor bright
let me show you where I belong
