

The good life

Time waits for nobody
it keeps rushing endlessly
you're getting creepy now
and I've waited just too long

The good life
I've waited long enough
the good times
I hoped they were round the bend

You kept me hoping still
I knew it just was a lie
they say we have free will
I turn my eyes to the sky

The good life
I've waited long enough
the good times
I hoped they were round the bend

Left with the memories
and scars that just will not heal
I see the field of stones
I just don't know what to feel

The good life
I've waited long enough
the good times
I hoped they were round the bend

The good life
I've waited long enough
the good times
I hoped they were round the bend
