

The Lift

It's just a little room
with mirrors all around
it's just a little room
it's going up and down

Oh take me away
I don't wanna stay
I can see forever
it's now or never

I hope I'll see you soon
enough with rejections
you'll stay inside your room
of endless reflections

Oh take me away
I don't wanna stay
I can see forever
it's now or never

Ground floor - going up
Top floor - closing doors

lifting me up - taking me down
letting me in - letting me out

I know you will go up
you know when I go down
I know you'll never stop
you know I've been around

Oh take me away
I don't wanna stay
I can see forever
it's now or never

Oh take me away
I don't wanna stay
I can see forever
it's now or never
