

## The Light

- a. The light
- b. Night and day
- c. Listen
- d. Sounds (instrumental)

- e. Sleep in the dust
- f. Top of the world
- g. Spend the day
- h. The light (reprise)

### a. The light

How can I breathe in this room  
how can I look into the  
light, the light, shining light  
I'm blinded

I'm blinded by the light  
paralyzed again  
I'm blinded by the light  
I can't see the shore

What can I see in this room  
how can I walk into the  
light, the light, shining light  
I'm blinded

I'm blinded by the light  
paralyzed again  
I'm blinded by the light  
I can't see the shore

### b. Night and day

The eternal flame  
we stay just the same  
eternal motion  
I got this notion

Night and day  
we slip away  
night and day  
I want to stay

Ever changing  
ever lasting

I am in this place  
a time and a space  
we've been moved away  
to the other skies

Night and day  
we slip away  
night and day  
I want to stay

Ever moving  
ever grooving

c. Listen

Listen to the beat  
walking in the heat  
listen to the space  
running in a race

Listen to your heart  
don't you fall apart  
listen to the void  
voices in your head

Listen to the trees  
running in the woods  
listen to the waves  
as they wash ashore

Listen to the sound  
humming in the air  
listen to yourself  
make yourself be heard

d. Sounds (instrumental)

e. Sleep in the dust

Sleep in the dust  
flow in the river  
rules of love  
following everywhere

Walking the road  
spending the time  
city lights  
distant stars in the sky

f. Top of the world

Follow the light  
follow the love  
seeing the sight  
being my guide

High we fly  
up in the sky  
watch the view  
from the top of the world

Follow the path  
into the light  
being right here  
being so near

High we fly  
up in the sky  
watch the view  
from the top of the world

g. Spend the day

Spend the day alone  
sitting on a throne  
watch the window pane  
watch the cycle lane

See them ride along  
see them fade away  
see the sun go down  
heading into night

Spend the night alone  
lie awake all night  
watch them ride away  
no one wants to stay

See them ride along  
see them fade away  
see the sun go down  
heading into night

#### h. The light (reprise)

What can I see in the night  
now that I walk into the  
night, the night, pitch black night  
I'm bound here

night, the night, pitch black night  
I'm bound to the  
light, the light, shining light  
I'm blinded

I'm blinded by the light  
paralyzed again  
I'm blinded by the light  
I can't see the shore

I'm bound here by the night  
paralyzed again  
I'm bound here by the night  
I can't get to sleep
