

True Blood

I don't want to go there
to the fancy party
I know it's next to nowhere
in the old abattoir

True blood
it's leaking out
True blood
I live in doubt
True blood
you see it now
True blood
it's on my hands

The music's playing loud
sinister atmosphere
I want to scream and shout
but the darkness is numbing

True blood
I want it now
True blood
I can't be without
True blood
don't spill it out
True blood
my life supply

I feel a lot calmer now
accepting my destiny
come here and caress me now
I need to justify

True blood
I want it now
True blood
I can't be without
True blood
don't spill it out
True blood
my life supply

True blood
just cut and see
True blood
it's running free
True blood
you're feeling faint
True blood
it looks like paint
