

Volatile Beings

We're out in the moonlight mist
we're beings with many twists

We're all volatile beings
living volatile lives
I got volatile feelings
about the other side

we're floating in nightly breeze
we're living among the trees

We're all volatile beings
living volatile lives
I got volatile feelings
about the other side

We're hunting in shadowlands
and resting in meadows green

We're all volatile beings
living volatile lives
I got volatile feelings
about the other side
