

Wait for me

I try to keep it up
my legs are just too short
and you won't ever stop
it's all that I can afford

Wait for me
I'm running out of time
wait for me
I try not to get behind

My tires are so flat
and energy is low
I lost my tip-top-hat
I cannot take a bow

Wait for me
I'm running out of time
wait for me
I try not to get behind

The air is so hot
the sun is shining gold
I just got one shot
that's what I've been told

The road is too long
there is a hissing sound
I don't feel so strong
you hide in a cloud

I lost the sight of you
I sit down and I cry
it's all that I can do
I resign with a sigh

Wait for me
I'm running out of time
wait for me
I try not to get behind

Wait for me
I'm running out of time
wait for me
I try not to get behind
